

Elcometer 3508 & 3560 4 Gap Applicator with Reservoir

Elcometer 3508 & 3560 4 Gap Applicator with Reservoir

Elcometer 3508 & 3560 4 Gap Applicator with Reservoir

A simple gauge with a single reservoir allowing the user to generate 4 different values of thickness of coating.

These stainless steel applicators are made with 4 straight spreading edges of fixed film gaps.

The Elcometer 3508 4 Gap Applicator with 2 reservoirs has been designed specifically for the generation of test samples for use with the Elcometer 1720 Abrasion, Scrubbing and Washability Tester.

Film Application & Test Charts

For numerous products such as paint, ink, varnishes, glue and cosmetics, the reliability of many laboratory tests is directly related to the quality of the samples prepared from it.

It is absolutely essential that any measurements made on such coatings, whether for the purpose of describing their appearance or their physical properties (colour, gloss, hiding power, drying time, etc), are made on the basis of uniform and comparable samples with precisely controlled thickness.

In order to meet such specific demands, Elcometer has a wide range of high quality, high precision film applicators and motorised film applicators for greater repeatability and reproducibility when undertaking a large number of sample tests.

Elcometer also offer a wide range of Leneta Test Charts – the market standard – to meet all your specific requirements

At a glance

- 4 thickness values in one gauge.
- Single or double reservoir option.
- Can be used for the preparation of samples for the Elcometer 1720 Abrasion and Washability Tester.

Can be used in accordance with:	
ASTM D 3022	ASTM D 823
FTMS 141a M2161	FTMS 141a 2162

Model	Number of Gaps	Film Gaps		Film Width		Part Number	
		µm	mils	mm	inches	Metric	Imperial
Elcometer 3560/1	4	30, 60, 90, 120	1, 2, 3, 4	60	2	K0003560M201	K0US3560M201
Elcometer 3560/2	4	50, 100, 150, 200	2, 4, 6, 8	60	2	K0003560M202	K0US3560M202
Elcometer 3508	4	100, 150, 200, 250	4, 6, 8, 10	2 x 50	2 x 2	K0003508M001	K0US3508M001
Packing List	Elcometer Film Applicator, Storage case & Operating instructions						

Related products

Elcometer 3700

Similar in operation and design to the Elcometer 3600, this unit has the added advantage of a reservoir to store the coating.

Elcometer Leneta test charts

Elcometer supply a wide range of Leneta Test Charts, from plain white to those having different patterns of black and white. Produced from high quality, non-fluorescent paper, free of optical brighteners that may affect colour measurements, Leneta Test Charts are the market standard in today's coatings industry.

Elcometer 1720

This robust and easy to use Abrasion Tester is extremely flexible and is designed to test the washability, brushability and abrasion resistance of a wide range of materials, including paint, lacquers, inks, coatings and much much more. Unlike most washability testers, this unit is easy to set up and is available as either a 2 or 4 station model and can measure on flat or curved surfaces.
