

Dräger X-plore® 6530 Full Face Masks

ST-816-2003

The Dräger X-plore® 6530 is the most widely used full face mask from professionals in a wide variety of applications. It meets the highest demands for quality, reliability, secure fit and comfort. This full face mask is the successor to the Panorama Nova masks, a range which has proven itself over decades of use worldwide.

Dräger X-plore® 6530
with Triplex visor

The Dräger X-plore® 6530 is compatible with Dräger X-plore® Rd40 filters. The Dräger X-plore® 6530 full face masks cover a wide range of applications and are versatile in use. They can either be used in combination with filters – or in oxygen deficient environments in combination with a self-contained breathing apparatus.

The mask body, which is made of robust and hypoallergenic EPDM, features a double-layer face seal with triple sealing action for a secure and comfortable fit on just about any shape of face. The mask comes in a universal "one size fits all", making logistics and storage easy. The comfortable five-point head harness not only ensures that the mask can be donned easily and quickly, but is wide enough to prevent any pressure points on the wearer's head.

The distortion-free visor with 180° wide-angle guarantees a large field of vision with panoramic view. It comes in either impact-resistant polycarbonate (with a plastic frame) or chemical-resistant triplex (with an extra robust stainless steel frame). The intelligent ventilation system ensures that the visor remains fog-free, while a stainless steel speech membrane facilitates communication. The mask also comes with a neck strap for easy carrying.

A barcode inside the mask makes checking inventories and carrying out maintenance easy. Valves can even be serviced without tools. A full range of accessories and spare parts are available. High quality materials and careful workmanship ensure mask longevity, making the masks highly cost effective.

TECHNICAL DATA

Mask body	Highly resistant and hypoallergenic EPDM
Visor	Choice of impact-resistant polycarbonate or extremely temperature- and chemical-resistant triplex
Connector	Sturdy plastic with inhalation and exhalation valve, standard thread connection Rd 40x1/7" as per EN 148-1
Weight	Approx. 550 – 650 g (depending on visor/frame)
Tested and approved	EN 136 Class 3 (CE mark), NIOSH (PC), AS/NZS
